

We have been working on an event for February 8, 2025, that will be an endurance style XC MTB race with Gravel Grinder and dropped bar categories.

The distance will be between 30 and 40 miles as the exact course has not been approved yet. We are hoping to start at Cottonwood Station in Blue Diamond and end at the Pioneer Saloon in Goodsprings using a mix of single-track and remote jeep roads.

Course approval is expected to be around June/July of 2024 with registration opening as soon as the racecourse has been approved.

The field limited will be limited for the inaugural event and increase yearly until the field limit reaches 1,000 participants. We expect this event to be very popular and become an annual Las Vegas cycling event as the racecourse will be for all abilities and types of bicycles.

Our goal is to provide a very remote and well-marked racecourse that finishes with the biggest party we can throw.

Stay tuned as details will be added as soon as they are approved.

A cool section of trail that was scouted out on 4-19, 2024.
